By International News Service.

SAN FRANCISCO. Nov. 10.—H. It. Lewe, a former tea and coffee merchant of Chicago, is under arrest here on a complaint of Joseph Sweeney, a saloon man of Chicago, who alleges that Lewe worked a confidence game on him and robbed him of \$700.

At the city prison Lewe said that he and Sweeney had planned a series of check-radaing operations that they believed would not them at least \$50,000. With this in view Sweeney, according to Lewe, gave his \$100 to deposit, against which certified checks were to be drawn, which were then to be raised.

Lewe says that he took some of the money and went out to the races one day and lost \$400, and that having no hope of repaying it, he took the remaining \$300 and came to California.

There never has been adopted, in the history of pensions or benefits, a plan that is so far-reaching, covering as it does, all employees from the highest to the lowest without discrimination.

I sincerely hope the public will grasp the underlying significance of this plan and how it has been possible to bring it about.

A thought along this line is particu-larly timely. Much has been said about combinations of capital and their effect upon public welfare, but I want to call attention to the fact that no such plan could possibly have been brought about except through a combination of financ-ing such as that afforded by The Amer-ican Telephone & Tolegraph Combany and its associate companies. It is because of our association in this way that we are able to give our employees the financial protection that modern conditions seem to dictate. Since modern conditions seem to dictate. Since no expense whatever is borne by the employees in this connection, it takes an approved form of profit sharing in which all participate equally and which is particularly designed to protect the needy and unfortunate.

It is with a great deal of gratification that I make this announcement.
